

# WAKATOBI

*biodiversity, water sports, and cruise tourism*

Now a National Marine Park covering the entire Wakatobi District, it comprises a total of 1.4 million hectares, of which 900,000 hectares are decorated with different, colourful species of tropical coral reefs. For Wakatobi is widely recognized as having the highest number of reef and fish species in the world. The islands are also famous as the largest barrier reef in Indonesia, second only to the Great Barrier Reef in Australia. Wakatobi located in “Coral Triangle”, a triangular area of the tropical marine waters of Indonesia, Malaysia, Philippines, and Solomon Islands.

Here can be found fringing, atolls and barrier reefs and offer more than 50 spectacular dive sites easily accessible from the major islands. This is the habitat of large and small fish species, the playground of dolphins, turtles and even whales. Wakatobi alone is said to have 942 fish species and 750 coral reef species from a total of 850 of world's collection, which, comparing with the two world's famous diving centers, the Caribbean Sea owns only 50 species with 300 coral reef species in the Red Sea, in Egypt.

<b>Location</b>	Wakatobi, South East Sulawesi
<b>Easy Access</b>	Matahora Airport (Wangi-Wangi Island in Wakatobi) - 25 Menit menuju Kabupaten Wakatobi
<b>Land</b>	Coordinative : 19.200 km2 Otoritative : 500 Ha
