**Description :**  
 Semarang has already had an urban public transportation with BRT system. Since the BRT does not have its own dedicated lane, the congestion problem still occurred and delayed travelling time from point to point. LRT is proposed as one of the solutions to reduce congestion and planned to be built with elevated track.

**Business Opportunity:**  
 Transaction adviser/bidder/financier

**Project Status:**  
 Project is currently on Outline Business Case
